To ensure long-term performance we recommend that a professional trade person carry out the installation. The installation must be carried out in accordance with Innowood Installation manual including the use of all trims and accessories.

PREMIUM FIBRE DECK - NEW TECHNOLOGY DECKING

INNOWOOD Premium Fibre Deck with Smart Clip Fixing System utilises hidden connectors slotted into grooves along the sides of the decking board profile which are fixed down to joists or battens. The system provides a clean hidden fixing surface. This patented technology enhances the rigidity, durability and toughness of the decking board to achieve better performance by significantly minimising the board movement at different temperatures.

DECKING & LANDSCAPE

DECKING & LANDSCAPE

Unlike timber, INNOWOOD Decking & Landscape solutions are lightweight for significant cost savings, environmentally friendly, low maintenance, fire resistant, slip resistant and highly durable.

INNOWOOD Decking looks and feels like natural timber but delivers superior performance, with none of natural timber’s challenges. Available in two options, InnoDeck and InnoTiles,

FLEXIBILITY

INNOWOOD Decking products can be used in a wide variety of outdoor applications including decks, planter boxes and street furniture.

CAPABILITY

Options that utilise fixing details capable of delivering unrivalled possibilities.

DESIGN INTENT

Innovative Decking systems that can be integrated into any landscape design.

BENEFITS

Decking that provides highly desirable warmth and character that comes from the closest composite to natural timber.

LANDSCAPE

INNOWOOD composite timber landscape and outdoor furniture solutions deliver the warm natural look and feel of timber, whilst being lightweight, environmentally friendly, low maintenance, fire resistant, slip resistant and highly durable.

INNOWOOD offers a custom design service for the creation of stylish, practical, cost effective and highly durable outdoor furniture for commercial applications and public spaces. Our broad range of outdoor furniture applications include outdoor benches, seats, tables, bins, planter boxes and practically any outdoor application you can think of.
