Intrim Architectural Mouldings & Profiles, a division of the **TMP Group**, is committed to producing quality mouldings for small to large projects of distinction. Should your project be of contemporary, colonial, modern or traditional heritage design, you can rest assured that Intrim has a profile to suit your requirements.

Intrim has evolved to service a wide range of clients and their needs. Whether it be a residential, commercial or heritage application, we realise and understand that you deserve to have the opportunity to share our teams experience to achieve the results you want.

SELECTING YOUR MOULDINGS

The following pages show a large variety of profiles with a quick reference to efficiently guide you to a scale drawing of your desired profile. Our team is committed to providing you with unparalleled service and advice on your requirements to make the creation of your project a reality. Having invaluable knowledge of our products means we are always on hand to listen and manage your enquiry from beginning to end.

MATCHING EXISTING OR CUSTOM MOULDINGS

If you are unable to find the profile to suit your requirements or wish to match an existing profile, simply provide an outline of the profile and our team will complete a shop drawing for you to approve prior to proceeding with the manufacture of your custom profile.

MATERIALS & LENGTHS AVAILABLE

Intrim Mouldings are available in many timber species and stocked in materials that are most commonly used. Throughout the Profile Booklet some Profiles have been marked with "a symbol (eg ▲)" this indicates the type(s) of timber (eg MDF) stocked in this profile.

▲ MDF-MR (MOISTURE RESISTANT MEDIUM DENSITY FIBREBOARD)

A cost effective material for an excellent paint finish. Only available in 5.4m lengths.

● F.J. PINE (FINGER JOINTED PINE)

Also excellent for paint finish. Can be stained and/or lacquered featuring joint marks. Only available in 5.4m lengths.

■ MERANTI/PACIFIC MAPLE

Mainly used for a clear or stained lacquered finish.

Random lengths only. If set lengths are required – a surcharge applies.

◆ VICTORIAN ASH/TASMANIAN OAK

Hardwood used for paint, clear or stained and/or lacquered finish.

Random lengths only. Set lengths are required – a surcharge applies.

▀ WRC (WESTERN RED CEDAR)

Used externally and internally. Desired for its natural timber beauty.

Random lengths only. If set lengths are required – a surcharge applies.

● CLEAR PINE

No knots or defects seen on display faces. Cost effective for stained and lacquered finish.

Random lengths only. If set lengths are required – a surcharge applies.

OTHER TIMBERS

Other species/varieties of timber available on request

NOTE: All raw materials may have natural colour variations due to nature of timber species.

SIZES

Note: Sizes in profile book are for MDF

Finished sizes for other timbers may vary +/- 1 - 5 mm.

SAMPLES

We have a large range of samples available. Phone our sales team today to experience our efficient sample service.

DISTRIBUTION

Our manufacturing and warehousing facility is located in Picton, in close proximity to Sydney and surrounding suburbs and is well positioned to service Australia wide.

CARING FOR OUR ENVIRONMENT

Intrim is committed to providing products that are sourced from renewable sources. We have implemented Green initiatives in a number of our systems including the recycling and reuse of our timber waste for numerous applications.

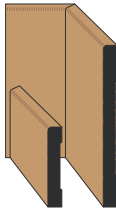

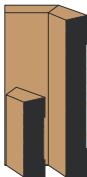

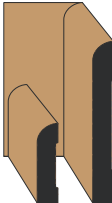

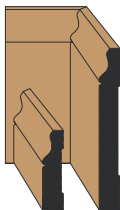

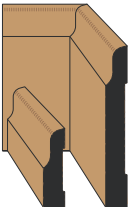

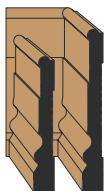

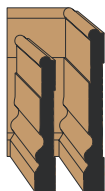

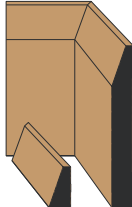

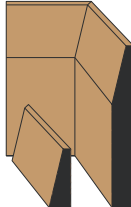

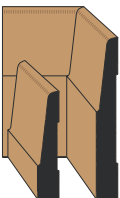

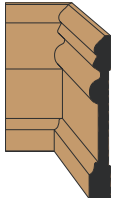

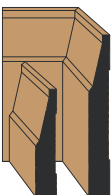

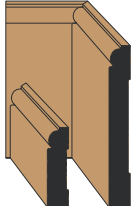

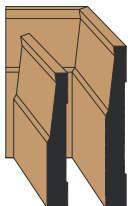

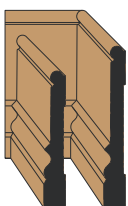

OUR MISSION

To exceed our customers' expectations in quality, service and innovation through continuous improvement and customer interaction

YOUR VISION. OUR FUTURE
