BRICK RAINSCREEN FAÇADE SYSTEM / MANUFACTURED BY FAIRVIEW

ABOUT SMARTBRIC

Smartbric™ by Fairview is an innovative ventilated rainscreen Brick Façade System which ingeniously incorporates the option of using either a grouted Retro brick facing or a modern Rapid mortar-less brick facing with a unique universal mounting track or rail option to deliver a versatile natural looking masonry façade solution.

The system has been tested to AS4284 and developed for quick, smart and simple installation by skilled tradesmen as well as traditional bricklayers. Made using vitrified clay, Smartbric™ allows the designer to achieve a realistic brick look without the shortcomings or restraints of traditional brickwork when it comes to weight, limited space or where traditional brick construction is not economically viable.

Smartbric brick facings are available in a range of colours and styles from Australian made bricks using locally sourced clay created in traditional coal-fired downdraft kilns; imported contemporary brick facings made using modern production methods to produce a high-quality vitrified product; and concrete masonry bricks made with local raw materials and the latest pressing technology.

SMARTBRIC CLASSIC STYLE

Smartbric Classic brick is designed to be grouted using a mortar to deliver a flush finish and traditional look.

Colours shown are indicative only and should not be used for final selection. Products chosen and ordered should be selected from actual samples at time of order. Clay bricks are made from naturally occurring minerals and position in firing kiln will also influence colour. Some variation in concrete brick colour, aggregate colour, aggregate size, and other components may occur. Variations in colour, texture, and size are natural characteristics of clay and concrete mix, and production variations can occur between batches. It is recommended to order all product requirements at the same time to avoid batch to batch variation.

LOCAL CONCRETE MASONRY RANGE

Australian Made concrete masonry.
Brick facings and corners are available in custom colours.
