Frameless Balustrade Channel

Simple

Functional

Stylish

Adaptable

Reliable

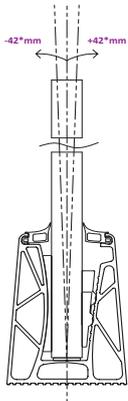

The FBC Balustrade Channel range from FGS Hardware provides the foundation for a stunning frameless balustrade.

With simple and quick glass alignment, this patented design creates complete ease of installation. No grout is required, meaning the glass can be easily removed or adjusted as needed.

Suitable for a range of glass thicknesses to suit interior or exterior balustrade applications.

Balustrade channel can also be used as an option for frameless glass pool fencing applications.

Available Configurations

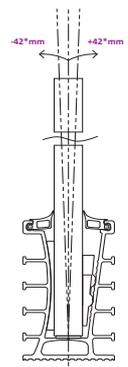

FBC15 - Base Mount
