EUROPEAN STYLE IN AUSTRALIA

Geberit's innovative button designs and concealed cistern technology has allowed users throughout the world to experience the luxury of well-designed modern bathrooms.

With experience spanning 60 years, Geberit has developed an eye for premium button designs and precision Swiss manufacturing.

This has led to the installation of more than 70 million concealed cisterns worldwide.

Geberit offers an impressive 15-year warranty on cistern tanks and frames as well as 50-year spare parts availability for ultimate peace of mind and long term security.

PRECISION SWISS ENGINEERING

Outstanding product quality is only achieved with a team of Geberit engineers and designers who have a passion for innovative function and design.

Precision Swiss engineering and outstanding manufacturing combine to deliver peace of mind behind the wall and design freedom at the front of the wall.

To ensure its carbon footprint is responsible, Geberit puts the environment at the heart of its business by focusing on sustainable sourcing, manufacturing, logistics and product design that delivers a harmonious synergy with nature.

Award-winning European product designer Christoph Behling has a history of creating timeless flush button designs for Geberit.

GEBERIT

THE PERFECT BALANCE. DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast Know-How and 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

OUR **APPROACH**

Sustainability has been an integral part of Geberit's corporate strategy since 1990, with the goal of using innovative sanitary products to continuously improve people's quality of life. To achieve this, we develop sanitary products and services while taking economical, ecological and social aspects into account. As the European market leader, we want to contribute to a more sustainable sanitary industry.

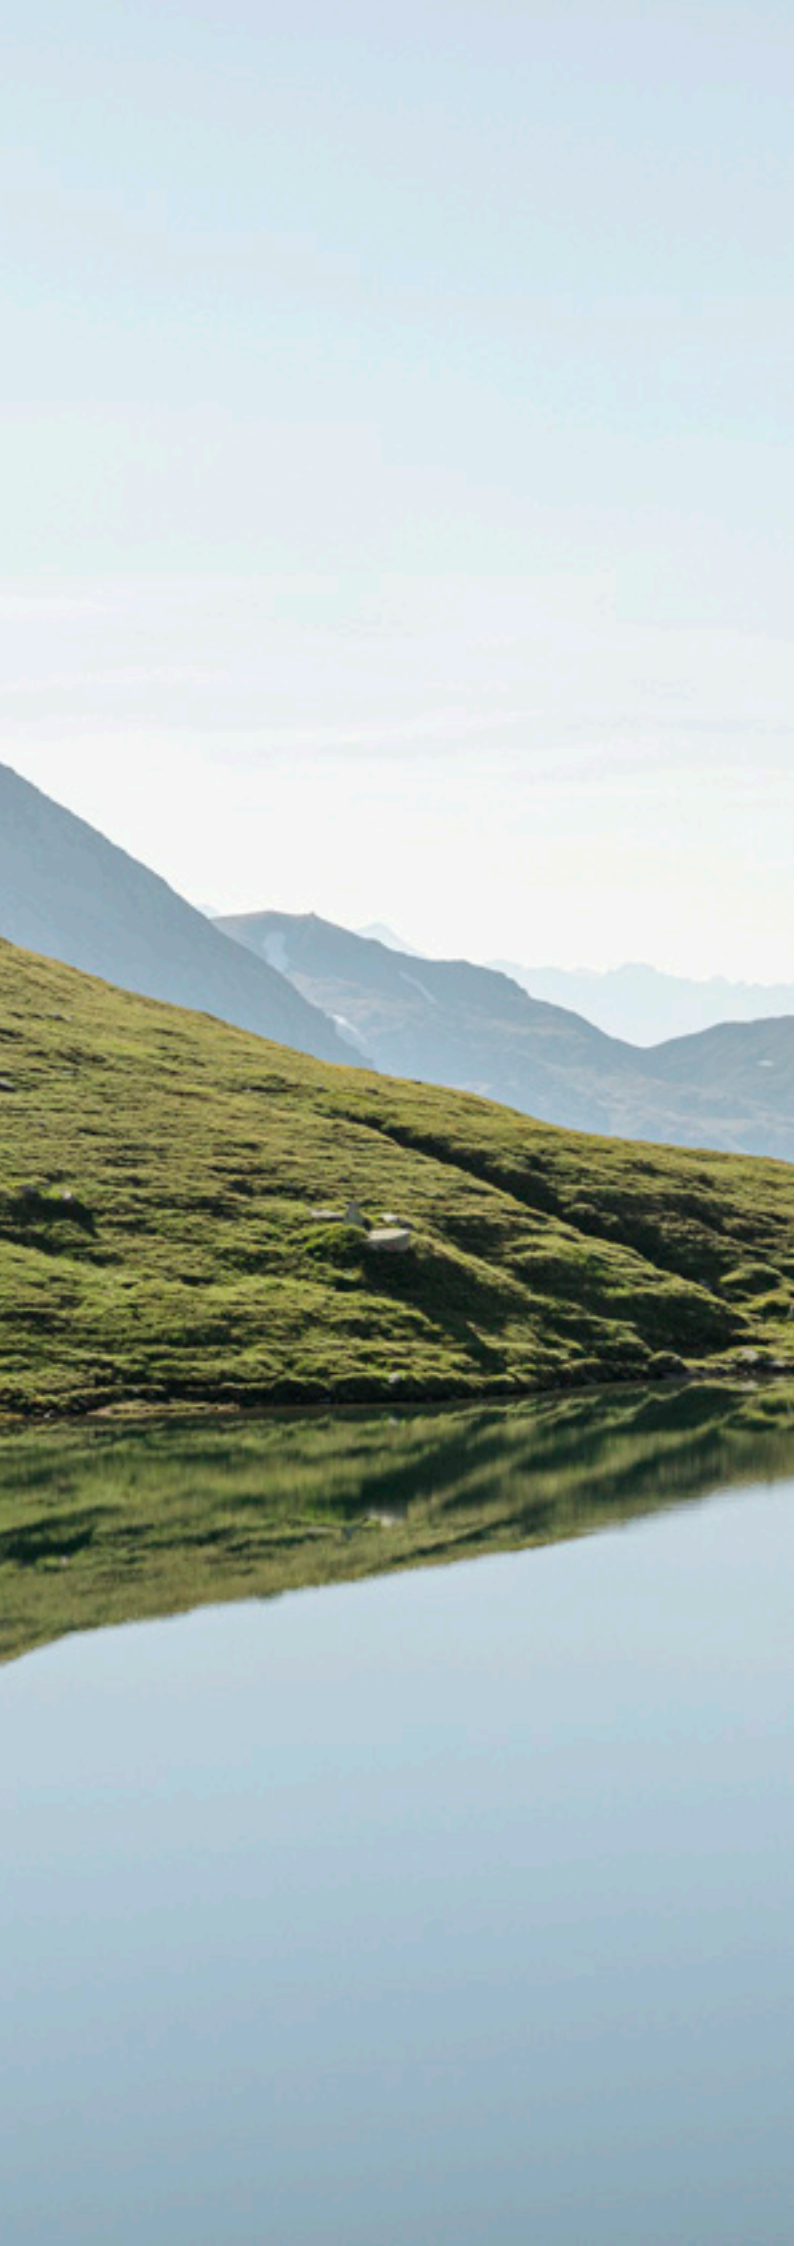
OUR KEY **FOCUS**

Environmentally friendly, resource-saving, durable products are extremely important at Geberit. The key here is eco-design, with all products developed consistently in line with the eco-design principle since 2007: Seen across the entire product life cycle – from the provision of raw materials to disposal – each product must be better than its predecessor from an ecological perspective, without sacrificing on quality, functionality or durability. Eco-design covers all stages of this life cycle, thus contributing to the circular economy.

Geberit, has received a Platinum seal from EcoVadis in recognition of its best-in-class sustainability management. This is the third consecutive year that we have attained the Platinum rating and cements the company's position as a sustainability leader within the sanitary industry.

Green Building Council Australia

Geberit has been a supporter of the Green Building Council of Australia since 2021. We are also a proud sponsor of The Future Homes Program.



UP TO **50 YEARS** SPARE PARTS AVAILABILITY

QUALITY GUARANTEED
Geberit offers an impressive 15-year warranty on cistern tanks and frames. Our one-piece blow-moulded, high-density polyethylene (HDPE) tank ensures that the cistern is permanently leakproof. It can also be easily accessed at any time, simply remove the flush buttons for quick and easy maintenance.

PRODUCT CONFIDENCE
Geberit offers up to 50 years spare part availability* for working parts within Geberit concealed cisterns and flush buttons.

This gives new construction or renovation projects the safety and security of parts availability for years to come.

Additionally, newly developed products and components are often backwards-compatible.

THOROUGHLY TESTED
In the endurance testing labs, cisterns, filling valves, flush buttons and taps are subjected to computer-controlled lifecycle testing.

Geberit concealed cisterns are simultaneously evaluated at a rate of at least 200,000 flushes per cistern.

The results of short and long-term testing serve as a guideline for production release and country-specific approvals.

* 25 years for Kappa, 50 years for Sigma

Geberit Concealed Cisterns

DUOFIX FRAME WALL HUNG SOLUTIONS

VERY STRONG
No wobbling or vibrations - strength tested to bear a weight of up to 400kg

DURABLE
Installed over 70 million times in the past 60 years, Geberit concealed cisterns and flush buttons represent the ultimate tried and tested solution.

MORE HYGIENIC
No pedestal and no cistern in front of the wall means no exposed pipework for dirt and bacteria to hide.

LEAK-PROOF
Every Geberit cistern is made from a single piece blow moulded HDPE and individually tested to guarantee water tightness.

SIMPLE MAINTENANCE
Simply remove the flush buttons for access to all important parts. Geberit stock spare parts for 50 years.
