

KEY FEATURE/BENEFITS OF THE VERDE MAXI HIGH PERFORMANCE HAND DRYER

1. The wide hand entry area minimises the opportunity for cross contamination from other users.

2. **Water Catchment** – excess water is trapped in the drying chamber and drains into a water reservoir, minimising Slip Risk Hazard as perpetuated by use of contemporary style hand dryers in washrooms.

3. The Drip Tray and Filter are easily accessible for maintenance/cleaning whilst the side mounted & concealed Control Panel provides the options of reducing fan speed settings (noise) & switching off the heating function.
