MAKING INTERIORS

Spectacular

Plain white walls are boring! Create spectacular interiors with Intrim Timber Mouldings

What is the name of that timber moulding?

Skirting | Architraves | Timber Mouldings | VJ Board Pro | Wainscoting

Explore the range

Ask your builder for Intrim

Did you know that Intrim work with leading builders and carpenters so you can ask your builder for Intrim. With a comprehensive quality range of skirting, architraves, wall panelling and bespoke solutions, we can assist you select the right profiles to make your interiors spectacular.

Big, bold & beautiful timber mouldings and wall panelling are on trend no matter the style of your project. This means they are a must consider item when planning your project to ensure you achieve your design vision. The cost for upgrading to larger profiles is not as much as you may think, and the impact it creates is well worth the investment.

Choose from a good, better, best solutions to achieve your vision while being considerate of your project budget. Talk to us and we can recommend solutions. In fact, we even offer virtual design consultations to chat with our product specialists via video or book an in showroom consultation to help finalise your selections

Did you know that timber mouldings help make the property more saleable, and achieve higher sale prices. The wow factor is achieved bringing your design vision to life through the selection of the right mouldings, wall and ceiling panelling such as larger skirting & architraves to the addition of Wainscoting, VJ Wall panelling and more.

Modern

Dave Franklin's Transitional Modern Hamptons Renovation by Indah Island

Landscape architect Dave Franklin teamed up with Queen of Hamptons design Natalee Bowen, Indah Island to renovate Dave's home.

"The great feel of this space is that the details of the skirting, architraves and sills allow this look to be classic if needed but then layered up to become any of the Hampton-styled looks with furniture. The furniture and styling in this house is very eclectic which works for their look. Lots of layers of plants and rugs create a warm feel through-out the home," said Natalee.

Shadowline Skirting

- SK800

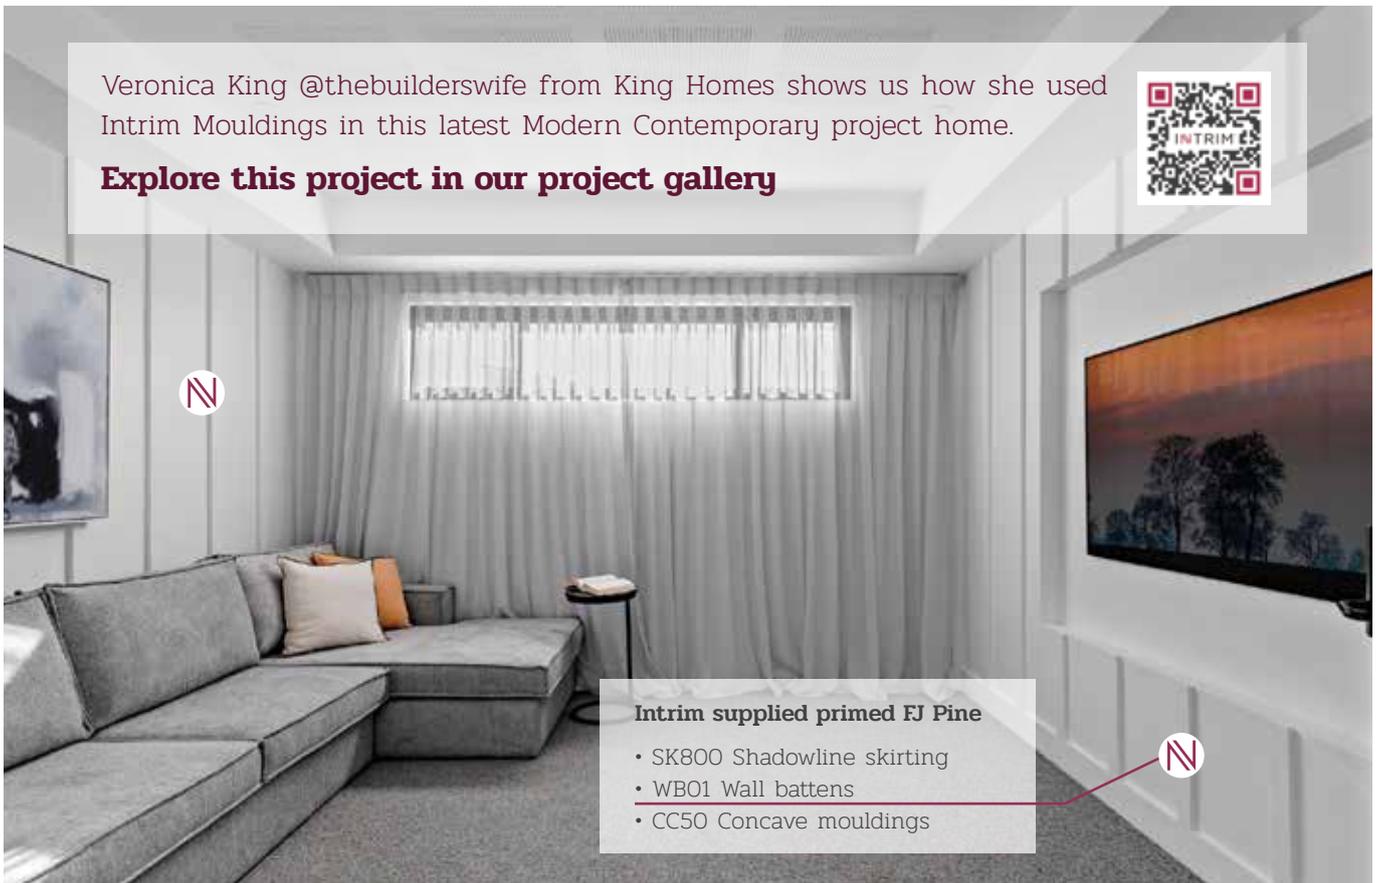

Concave Moulding

- CC50

Veronica King @thebuilderswife from King Homes shows us how she used Intrim Mouldings in this latest Modern Contemporary project home.

Hamptons

Selections in a Box

At Intrim our goal is to help make it simple to make your interior spectacular with big, bold & beautiful timber mouldings, wall and ceiling panelling. That is why we have partnered with Natalee Bowen from Indah Island, a renowned interior designer and TV presenter. Natalee has developed the Hamptons "Selections in a Box", a curated collection of Hamptons styles, to make selecting your timber mouldings easy.

Modern

Modern Hamptons Case Study by Zephyr & Stone

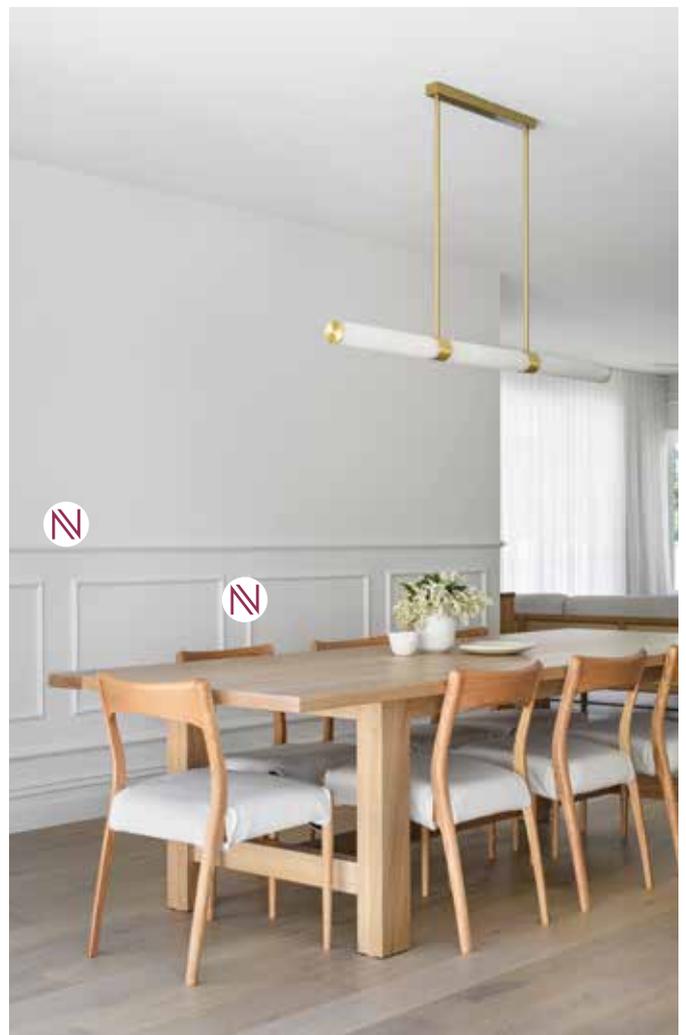

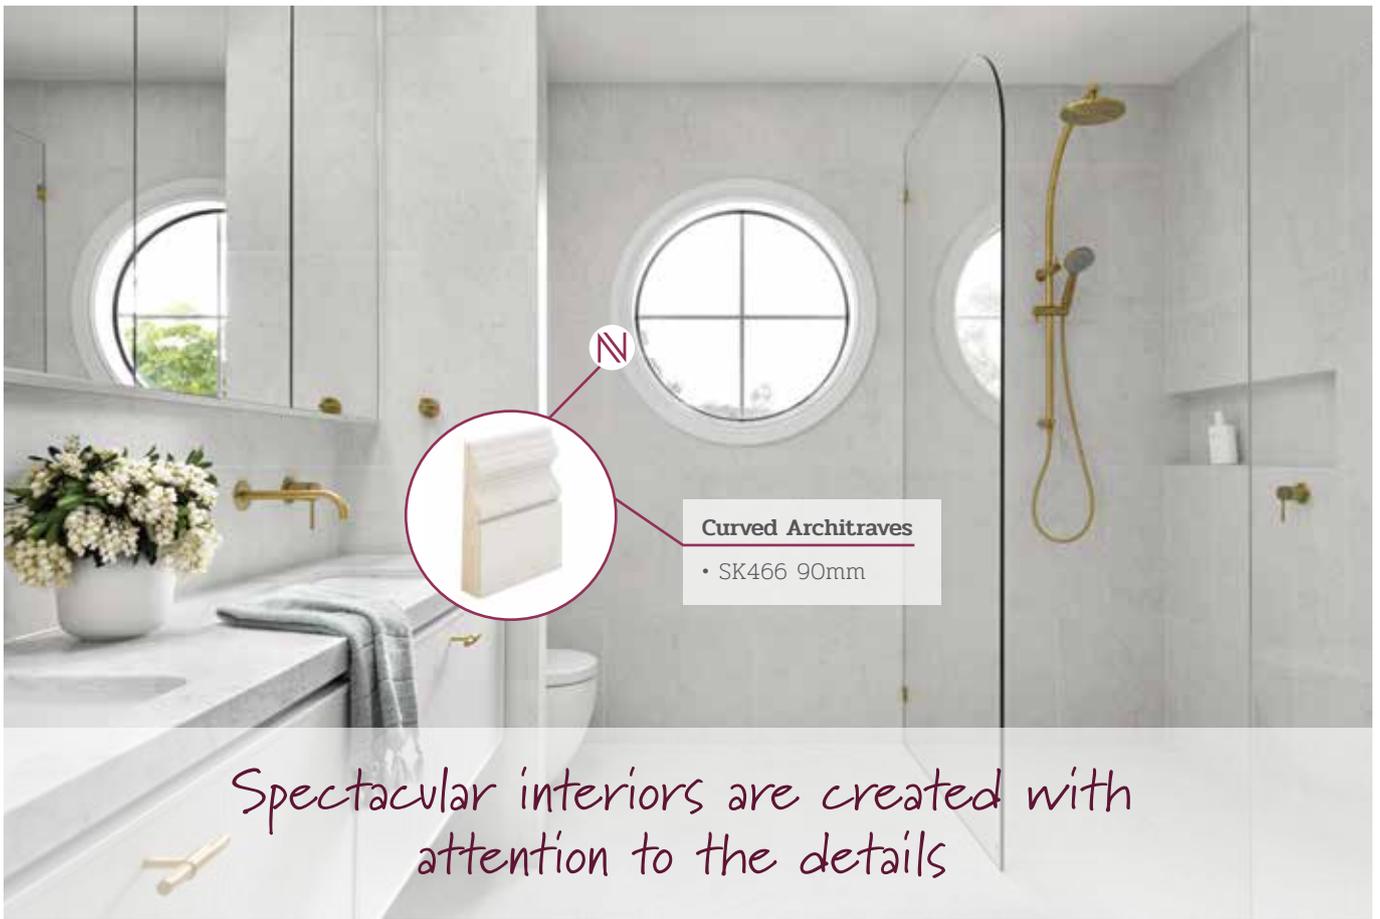

“The home design itself, it’s a contemporary take on Hamptons style. The wainscoting, skirting and architraves from Intrim were selected to add beautiful character and style, without dominating spaces. Hamptons is a classic, timeless style that never really goes out of trend, especially when executed with restraint” said Ania Forster, Zehpr & Stone

Coastal

Coastal Hamptons Case Study by CasaView Homes

“We are very happy to have the Intrim products in our homes as it creates a different look to the very popular Hamptons style. It adds a different dimension and gives the home contemporary charm” said Melinda Megale, Colour Consultant CasaView Homes.
