ASKIN HOARDING PANEL

We are able to provide you with two hoarding panel options, including a cost-sensitive EPS-FR core panel and an FM approved XFLAM core panel which will satisfy your insurance needs. ASKIN Performance Panels will deliver:

- /// An easy and speedy installation and removal, with a potential for re-use
- /// A smooth surface with colour options - great for advertisements
- /// A high-quality/low-cost installation when compared to alternative options

PANEL OPTIONS

EPS-FR core

- /// BCA Group 1 product containing a flame retardant (FR) that is self-extinguishing
- /// Colour options include Surfmist & Night Sky amongst others
- /// Thicknesses of 50mm, 75mm, 100mm
- /// Thermal ratings of R 1.45 - R 2.75

XFLAM (fire resistant, FM approved) core

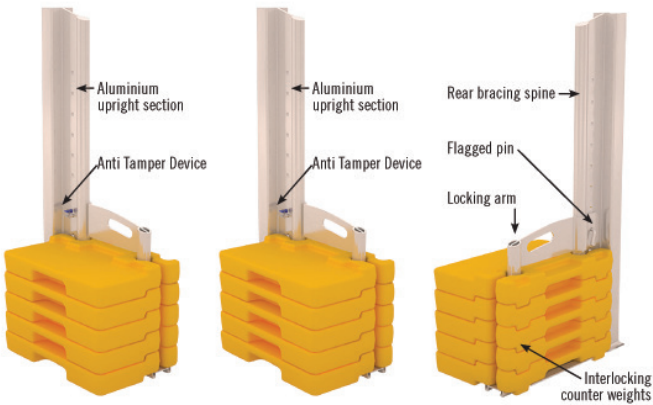

- /// Superior fire performance with FM approval
- /// Colour options include Surfmist and Night Sky amongst others
- /// Thicknesses of 50mm, 75mm, 100mm
- /// Thermal ratings of R 1.72 - R 3.30

TITAN HOARDING SYSTEMS

Developed by Brisbane-based Eagle Rock Construction (ERC) the TITAN hoarding system provides a new solution to the old-fashioned hoarding systems of pine framing and ply. TITAN is the only off-the-shelf components hoarding system capable of constructing a cost effective and entirely re-usable AS4687 Certified hoarding systems which can be used both internally and externally. Available for use in any shape, size, angle or length, these hoarding systems are utilised in locations such as Retail Shopping Centres, Construction sites, Commercial buildings, Airports and more.

CERTIFIED HEIGHTS

Internal

- /// 1.2m to 3.6m high solid panel free-standing (or 6.0m high with minor bracing)
- /// 3.6m solid panel to 6.0m high with dust suppression & free-standing
- /// 3.6m solid panel to 10.0m high with dust suppression & minor bracing

External

- /// 1.8m to 3.6m high free-standing if installed within 3.0m of a building façade
- /// 1.8m to 2.4m high free-standing stand alone to an open work zone or construction site perimeter
- /// 2.4m high and above with bracing
