TOTAL BUILDING SOLUTIONS

For almost 50 years, LWG has lead the way in supplying specialised plumbing products to the Australian Plumbing Industry. Our recent alignment with major industry supplier Zurn Industries, LLC opens the door on a bright and exciting period of growth.

Now trading as **LWG Zurn Australia P/L** we are excited to be at the forefront in delivering innovative and performance driven Zurn and Zurn Wilkins products focused on water conservation, water control, water safety and hygiene, and water comfort alongside our solid stable of LWG products.

Our diverse and growing portfolio of Wels and Watermark approved product provides performance and reliability, and coupled with our long-standing history of customer service shows our commitment to providing sustainable value and satisfaction in every installation.

Warden Model WA-UR4-PP

A multi-purpose electronic control system for ensuring ultimate security and economy of plumbing fixtures. Warden 2 & 4 provide water control limiting use for showers, WC flushing, and taps. Warden 5 does the above, with the addition of power and lighting control. Ideal for installation in public facilities such as schools, swimming pools, gymnasiums, public toilets, and Police and prison cells.

ABOUT LWG ZURN AUSTRALIA P/L

LWG Zurn Australia is your leading supplier of specialised plumbing products. With a proud history begun by Les Gemmell and spanning half a century, the company once known as LW Gemmell has grown and adapted to the changing needs of the Plumbing Industry. With our acquisition by Zurn Industries, LLC. in September 2013, we have undergone many changes, most obviously becoming LWG Zurn Australia P/L. These changes mark the beginning of an exciting period of growth for us, and one which we look forward to sharing with our loyal and expanding customer base.

Our products are Watermark and WELS certified and are installed in various projects across Australasia from prisons to stadiums (including the iconic Melbourne Cricket Ground).

Support and training are key focuses in our business and we gladly supply products and technical manuals to plumbing training schools Australia-wide. LWG Zurn representatives often give lectures on products and installation techniques to plumbers, apprentices and builders.

Our future focus is to build on the strong combined reputations of LWG Zurn Australia and Zurn Industries, expanding our innovative product range and continuing to serve our customers' needs by providing the reliable products and service we are known for.
