MARK BEST AEG BRAND AMBASSADOR

Mark Best started by discovering the stoves accidentally and ended up becoming an unquestionable symbol of the new Australian Cuisine. His perseverance and his 'eternal dissatisfaction' (as he calls it himself) are the vitamins for his spectacular personal development.

"I live in a melting pot of new ideas and cultures," says Mark Best. "We do not have the shackles of culinary history; we are free to be inventive, spirited, adaptive and progressive."

"I aim to bring the extraordinary produce of Australia to a point of celebration and unnatural expression".

These words accurately describe Best's approach to cooking. Food, focussed on flavour, with technology an integral ingredient.

Best started his working life as an electrician in the gold mines of Western Australia before embarking on his culinary career at the age of 25. He commenced an apprenticeship at the Macleay Street Bistro, Potts Point, in 1990. This was the beginning of his passion for French food. It was the heyday of modern Australian cuisine – the fusion of European techniques

and ingredients with the flavours of the Asian region – and a flourishing time for Sydney's food scene. In 1995 Best won the annual award for Sydney's best young chef, The Josephine Pignolet Award.

In 1995, he opened his own restaurant, Peninsula Bistro, Balmain, which soon developed a strong local following and rave critical acclaim. During this time he decided to further his study of French Cuisine in France. In 1998 he worked at 'L'Arpège' in Paris, (under Pascal Barbot) Alain Passard's three Michelin Star Gastro Temple. He followed this with a stint at Raymond Blanc's, 'Le Manoir Aux Quatre Saisons' in Great Milton, UK.

Mark Best has won Chef of the Year in the annual Sydney Morning Herald Good Food Guide, Restaurant of the Year in Australian Gourmet Traveller, Sydney Morning Herald, Time Out magazine and in the Restaurant and Catering Association's Awards for Excellence, featured for three years running in the San Pellegrino & Restaurant Magazine's World's 50 Best commencing with the 2010 "Breakthrough Award".

Best has previously owned Marque, Pei Modern, Melbourne & Sydney, and recently opened 'Bistro' by Mark Best on the Genting Dream part of the expanding Dream Cruise lines.

COOKING DEMONSTRATIONS

At AEG, we believe our products deliver intelligent technology and exceptional performance, helping you to take anything you do in the kitchen to the next level.

We want to equip you with the right tools to create exceptional taste experiences. Why not attend one of our introductory cooking demonstrations at one of our participating retailers to see for yourself.

Our demonstrations are designed to showcase some of the many features and benefits of our product range. You will receive great tips and tricks from our knowledgeable chefs who will demonstrate a variety of recipes and answer any questions you may have.

Our demonstration program runs throughout the year at a number of national retailers. Please visit our website and enter the Inspire with AEG area for full details.

OVENS ELEVATE YOUR COOKING WITH STEAM

Steam. It's the word on everyone's lips, from chefs to discerning home cooks. SteamPro with Steamify® is the secret ingredient that elevates your cooking to restaurant standards – you can even SousVide, with ease.

With the Steamify® function, set the desired temperature and the oven will adjust the steam level automatically. For healthier, tastier food, steam cooking brings out the richest flavours and preserves nutrition.

AEG

AEG

SOUSVIDE IN JUST FOUR STEPS

Food cooked using the vacuum-sealed, lower temperature SousVide technique is tastier and healthier. You can cook with absolute purity, sealing the aromas, taste and nutrients within the vacuum bag, then applying gentle steam heat to cook delicious dishes.

STEP 1

Clean, chop and season.

STEP 2

Seal all the flavours in the PrecisionVac SousVide vacuum sealer drawer.

STEP 3

Place in the oven and select the SousVide function.

STEP 4

Plate and present.

INTRODUCING MATTE BLACK

The Matte Black Collection from AEG brings a new tactile finish to the Mastery Range at a time when we are seeing matte textured finishes emerging across all interior surfaces, homeware and technology products. It brings together years of material engineering for an exclusive and premium execution, which will bring a new aesthetic to an increasingly sophisticated kitchen space.

SLEEK, SEAMLESS, SUPERIOR

The process of creating Matte glass enhances the characteristics of tempered glass, and the stain resistant and anti-fingerprint properties of its' surface, makes it a perfect fit in the most demanding environment. Our designers have ensured that the display and interaction areas of the ovens have been left polished to enable clarity of view and effortless interaction through touch.

STEAMPRO. MASTER EVEN THE MOST COMPLEX FLAVOURS

Now you can be sure of exactly the right amount of steam to create delicious results every time – effortlessly. The SteamPro oven features the Steamify® function to ensure the ideal taste, texture and colour when roasting meat, steaming vegetables, baking soufflés or making delicious SousVide dishes.

NEW

STEAMPRO WITH STEAMIFY® BSK99733PT

60cm matte black SteamPro oven

- 2 chrome wire shelves
- Dripping pan
- Wire shelf trivet
- Cake tray

STEAMCRISP. YOUR NEW STANDARD FOR FLAVOUR

Take your dishes to the next level with the SteamCrisp function. How? Traditional oven heat is enhanced by the introduction of steam. So not only do you get crisp and golden on the outside, but thanks to the gentle flavour preserving nature of steam, food is juicy, succulent and consistently tasty on the inside.

SPECIFICATIONS

Product dimensions (HxWxD) in mm

594 x 595 x 567

Flush fit cut-out dimensions (HxWxD) in mm

600 x 600 x 580

Pyrolytic cleaning

With one touch, dirt, grease and food residue in the oven is converted into ash that you can easily wipe off with a damp cloth.

Food sensor

The Food Sensor allows you to accurately control the cooking process, so every dish is finished just how you want it.

Command wheel

With the responsive Command Wheel and TFT display you have complete control over the cooking process, whether adjusting the time, temperature or function of your oven.

STEAMBAKE. ADD STEAM FOR CRISPIER BAKING

The SteamBake function adds steam at the beginning of the baking process, keeping the dough moist on the surface to create a golden colour and tasty crust, while the heart stays soft and tender.

STEAMBAKE PYROLUXE™ BPK556320M

60cm SteamBake PyroLuxe™ oven
with Touch on Glass controls

KEY FEATURES

- 71L nett capacity, 77L gross
- 10 oven functions
- SteamBake steam assisted baking function
- PyroLuxe™ self-cleaning function

90CM SENSECOOK PYROLYTIC OVEN

The perfect combination of cutting-edge design and precision, the AEG 90cm oven with PyroLuxe™ Self Cleaning will be the standout performer in your kitchen. With spacious 125L capacity, you'll be able to execute several superior dishes simultaneously. Incorporating the very best in fan technology, the SurroundCook PLUS will ensure the heat is distributed evenly to your dishes no matter where they are placed, meaning great tasting food exactly the way you want it.

SenseCook

Use the Food Sensor to tell the oven how you want your dish cooked using just the words you would in a restaurant, rare, medium, or well done. Without even opening the oven door, everything from tender joints of meat to molten chocolate fondants are controlled and mastered.

PyroLuxe™ self cleaning

The advanced self-cleaning function takes all the effort out of keeping your oven clean. By heating the oven to 500°C, all food residue is turned to ash, which can then be simply wiped out with a damp cloth.

SurroundCook PLUS

The advanced twin fan technology ensures that every part of your dish is getting exactly the heat it needs. Evenly. Consistently. Wherever it's placed. The fans rotate in opposite directions, distributing heat evenly throughout the extra wide oven.

SENSECOOK PYROLUXE™ BPK722910M

COOKTOPS PRECISION AND CONTROL

At AEG we believe a cooktop should look as good as it performs, which is why our new induction range has been designed with not only the latest assisted cooking technology, but also sleek and sophisticated finishes. Intuitive, precise, yet flexible and chic. Discover a new world of endless possibilities.

Master food. To the exact degree.

The wireless probe on the SensePro measures the core temperature of food for precise results. It works without batteries so there's no upkeep required.

SENSEPRO – YOUR PERSONAL SOUS CHEF

The SensePro cooktop gets every dish right. The wireless food sensor measures the core temperature of food. Boil pasta, simmer sauce, pan-fry a steak – whether rare, medium or well-done. It's even possible to SousVide on the cooktop. It's the personal sous chef for restaurant-style results at home.

One touchscreen. Intuitive communication.

The touchscreen display provides an intuitive assisted cooking experience.

SENSEFRY. RESULTS – WITHOUT THE GUESSWORK

Use the intelligent touchscreen on the SenseFry induction cooktop to select the food and desired result. The technology maintains an even heat for the best frying results. No more guessing when the pan is at the right temperature. And no need to adjust the settings during cooking.

Hob2Hood regulates the fan while you concentrate on the key moments involved in getting your dish just right. It will automatically control your cooker hood and lights. But if you'd rather adjust the fan speed, there are manual controls on the cooktop too.

OptiHeat control

By monitoring each heat zone as it cools, the OptiHeat control helps you make the most efficient use of residual heat. The OptiHeat control advises 3 levels of residual heat – whether the heat zone is still hot enough to cook with, hot enough to keep food warm, or simply hot to touch.

Pause function

When ready to resume, touch the Pause button again and all the zones return to their previous settings.

CountUp timer

Set a reminder with the minute minder, or at a glance with the CountUp timer, keeping you in control of your cooking.

AutoMax

The AutoMax function, once selected, will bring the zone up to the highest power level then reduces to the pre-selected power level for the remainder of the cooking time.

Öko timer

The Öko timer is an intelligent way for you to use resources more efficiently. When the time is pre-set on the cooktop, the Öko timer turns off the cooking zone and uses residual heat in the cookware to finish cooking the dish. The result? The same high quality food for lower energy bills.

OptiZone pure induction – your touch brings it to life. Imagine a glossy sheet of pure ebony glass. Add backlit touch controls and cooking zones, glowing red only when you turn them on. It's the ultimate induction cooktop for the modern kitchen. Now available with FlexiBridge technology.

FlexiBridge and PowerSlide. Made for those occasions when you need more options with equally tasty results. The FlexiBridge feature means you can customise your own cooking area, combining up to 4 segments together with a consistent and even heat distribution ①.

At the touch of a button, the FlexiBridge cooking zone featuring PowerSlide switches to three pre-set temperature levels: high, medium and low, so you can simply move the pan to seamlessly go from boil to simmer ②.

① FlexiBridge function

② PowerSlide function

High heat
when searing

Medium heat
when low frying

Low heat
when keeping warm

DID YOU KNOW?

A steak is mostly cooked by the meat itself rather than the heat surrounding it. This is why flipping a steak every 15 seconds cooks a steak better than flipping every few minutes.

SENSEPRO. PRECISION AT ITS CORE

King salmon. Duck breast. A smooth hollandaise. When there is the confidence to cook anything, there's no stopping culinary genius. The SensePro gets every dish right. The wireless probe measures the core temperature of food. It's even possible to SousVide on the cooktop. Precision and control deliver perfect taste.

NEW

SENSEPRO INDUCTION IAE84881FB

80cm SensePro induction cooktop

COMBOHOB. UNPRECEDENTED FLEXIBILITY

ComboHob MultiBridge brings a powerful induction hob and extraction fan together into one masterful product. Kitchen design is no longer restricted as to where an overhead hood can be placed. Experience design freedom, with the convenience of a hybrid hob.

NEW

COMBOHOB
IDK844541B

83cm induction cooktop
with integrated downdraft extractor

KEY FEATURES

- Hob2Hood
- Flexible MultiBridge zone
- Direct Touch Control
- Easy clean, removable extractor
- Recirculation - 630m³/hr
- Optional: duct out

Optional accessories:

- Recirculation kit - KIT0171865

Cooking and extraction in one

ComboHob is an extraction fan and powerful induction cooktop in one for functional cooktop convenience with minimal form that will optimise kitchen design options.

Automated extraction

Hob2Hood technology delivers automatic extraction. The hood's fans will adjust themselves accordingly as you turn the heat up or down on the cooktop so you can focus on cooking.

Large meals cooked at once

The MultiBridge function allows you to customize your cooktop when required. The cooktop will rise to the occasion with automatic power alignment, even heat distribution and ability to accommodate large pots and pans.

- Stop + Go function
- CountUp timer
- Öko timer function
- Control lock

SPECIFICATIONS

Product dimensions (WxD) in mm

576 x 516

Cut-out dimensions (WxD) in mm

560 x 490

OptiHeat control

By monitoring each heat zone as it cools, the OptiHeat control helps you make the most efficient use of residual heat. The OptiHeat control advises 3 levels of residual heat – whether the heat zone is still hot enough to cook with, hot enough to keep food warm, or simply hot to touch.

AutoMax

The AutoMax function, once selected, will bring the zone up to the highest power level then reduces to the pre-selected power level for the remainder of the cooking time.

Stop + Go

When ready to resume, touch the Pause button again and all the zones return to their previous settings.

IGNITE. SEAR. CONTROL. WITH ABSOLUTE ASSURANCE

From king prawns to rib-eye, nothing compares to searing over a naked flame. Now, precise control over the intensity of that flame ensures perfectly charred flavours.

The advanced TouchSure cooktop comes with a range of reassuring safety features that provide absolute confidence in – and absolute command over – gas cooking. It's a traditional method harnessed with our responsive technology.

Hob2Hood

Leave Hob2Hood to regulate the fan while you concentrate on the key moments involved in getting your dish just right. It will automatically control your cooker hood and lights.

Pause function

With Pause cooking function, one touch pauses the cooking process – and restarts it again with the same settings.

Child lock

The child safety lock ensures that the hob cannot be accidentally switched on or its settings changed.

Display lights

LED indicators tell you if a burner is turned on or off. Residual heat indicators show whether pan supports are still hot after use.

Electronic touch controls

Full control of the flame. The hob's electronic touch controls react quickly and accurately to your every touch.

Timer

With the convenient timer, you can set your cooking time. Once it's over, the hob will switch itself off.

PERFECT IN STYLE AND PERFORMANCE

The gas on black ceramic cooktop offers maximum stability for when cooking gets fast and furious. The striking grid design of trivets also offers you perfection in style and performance.

ELECTRONIC GAS ON CERAMIC GLASS HVB954501B

90cm 5 burner ceramic
with Touch on Glass control

KEY FEATURES

- Electronic touch control
- Hob2Hood function
- Gas stop auto shut off
- Residual heat indicators
- 5 burners including wok burner
- 13.4MJ triple crown wok burner
- High quality vitreous ceramic glass
- Cast iron pan support
- Automatic integrated ignition
- Flame failure safety device
- Wok support trivet
- Child lock
- Timer
- Natural gas only

Hob2Hood function

Leave Hob2Hood to regulate the fan while you concentrate on the key moments involved in getting your dish just right. It will automatically control your cooker hood and lights.

Electronic touch control

Full control of the flame. The hob's electronic touch controls react quickly and accurately to your every touch.

Multi-ring triple crown wok burner

Our gas cooktops have a multi-ring high output wok burner to produce high heat for wok cooking, intense frying or fast heating.

Easy clean ceramic glass

With the seamless surface, our cooktops can be cleaned effortlessly.

RANGEHOODS

POWERFUL EXTRACTION, WITHOUT COMPROMISE

Our cooking environments need to be fresh, bright and peaceful, enriching the time that we spend there. We use advanced technology to ensure that the design and build of our rangehoods give you the optimum combination of high-end design and powerful functionality.

8000 Series

The 8000 series of AEG rangehoods have been designed to take form and function to the next level. With a stylish dark stainless steel finish to elevate your kitchen's style to powerfully extracting vapours, odours and grease, air flow is optimized, quietly and efficiently, thanks to the high quality offboard motor and stainless-steel baffle filters.

Hob2Hood

AEG's intelligent Hob2Hood system ensures your hood works in harmony with your hob as soon as you turn your hob on. A wireless signal is sent to the hood, switching on the lights and providing optimal visibility.

LED indicators

Our new premium and modern user interface combines super responsive capacitive touch buttons along with back lit LED indicators. The LED turns red to show which feature is on or off.

SilenceTech

Our more advanced hood technology reduces the noise level down to the lowest possible number of decibels so that you can cook powerfully and enjoy the experience without loud sounds from the appliance.

Dimmable LED

Provides the possibility to adjust the intensity of the light according to your needs, creating a nice ambient illumination in your kitchen.

Seamless

Aligned across our range, your choice of hood will integrate seamlessly with any of our hob models. Our top line models feature our signature flow line for design harmony, together with a sophisticated white LED display on layered glass and metal.

Run it for less energy

Our hoods are highly efficient, using less energy than standard models. This is thanks to our brushless Inverter Technology. In fact, when you run the hood at its maximum speed, you'll use up to 40% less energy than standard models. And at the minimum setting, it needs less energy to run than a standard light bulb.

STRIKING
DESIGN.
SEAMLESSLY
MATCHED
WITH YOUR
KITCHEN

Our range of hoods with matte black or dark stainless steel finish make a striking aesthetic statement without intrusion, quietly and efficiently clearing the air while you prepare your meals. They are seamlessly designed to complement our new dark range of appliances, offering a sophisticated product suite to enhance your kitchen.

COOKING ACCESSORIES

Nothing should get in the way of achieving beautiful results. That's why at AEG we're dedicated to creating products that help you pursue your passion – your own personal definition of perfection. It's this thinking that lies at the heart of everything we do... it shapes our design and our advancements in technology.

For over a hundred years we have been using cutting edge designers to help create and develop our products, recognising that good design doesn't just make things easy on the eye, but easier for you to use.

Our cooking accessories are designed to complement your AEG kitchen appliances with the same level of precision you would expect from any other AEG products.

INOX
18/10

Professional grade

The magnetic steel outer gives superior induction and is simple to clean. At the core is three layer aluminium – an excellent heat conductor. While the outside is crafted from hygienic, easy clean, corrosion-resistant 18/10 stainless steel.

LONG
LIFE
QUALITY

Reliable technology

The materials are all perfectly combined to ensure heat spreads evenly over the entire surface, including the sides, for uniform, controlled cooking. Even when heated quickly, no deflection or deformation will occur (long life quality).

MASTERY COLLECTION

At AEG, we were the first to launch the induction cooking hob over 25 years ago.

Today, we bring you our high performance cookware range of premium pots and pans that is designed to harness the power and precision of induction technology to bring out the best in any ingredient.

Designed to fit perfectly on AEG induction cooktops

The Mastery Collection's multi-layer construction is optimised for AEG induction cooktops and also fits all other cooktop surfaces. Fully flat bases optimise adherence to the cooktop surface and maximise heat transfer efficiency.

Dishwasher and Oven Safe

The entire Mastery Collection is dishwasher safe. All Mastery Collection pots and pans are oven safe up to 250°C.

COOKWARE A9KLLC0

Roasting pot with lid

Use the Roasting pot to cook everything from casseroles to roast meats, vegetables and poultry. Sear and simmer on the cooktop, then finish off the dish in the oven in one convenient process. Keeping all the rich flavours inside the Roasting pot for a juicy tender result every time.

FIRST KLASSE CARE

Perfection is an AEG hallmark, backed by our complete commitment to customer care.

We employ a dedicated service team ready to ensure your experience with AEG is nothing short of exceptional – every single day.

Same-day service[†]

Our technicians are trained to the highest AEG factory standards, ready to be deployed at a moment's notice. Call from any major capital city before midday (12 noon EST) and we'll be with you that very same day, if requested. Call after midday and we guarantee next day service with the option to accept a preferred two-hour window between 8am - 5pm, Monday to Friday within the metropolitan area.*

Dedicated contact centre

Like our products, our dedicated First Klasse Care Team offers unrivalled dependability. Contact us for delivery enquiries, installation details, product features, service updates and even product dimensions.

Prompt delivery & connection

At AEG, dedication to service begins long before your new appliance arrives. You can expect a call ten days prior to delivery to arrange the most suitable date, followed by a confirmation call on the eve of delivery to arrange the most suitable time of day.

Our professional AEG service personnel deliver to all major capital cities, and will unpack your new appliance and connect it to existing utilities[^]. We'll also remove your old appliance and all packaging to be environmentally recycled.

AEG 5 YEAR GARANTIE

Perfection is nothing without endurance.

Every AEG product in our collection is equipped with our assurance that it will perform beyond expectations. It's called AEG – Garantie. You will receive a 5 year warranty with every product. Of course, it's nothing less than you'd expect of high performing German standards.

We Garantie it.

Warranty

Electrolux Home Products Pty Ltd and Electrolux (NZ) Limited (collectively Electrolux) warrants that for domestic applications the Appliances featured in this brochure are free from defects in materials and workmanship for 5 years, and warrants that for featured accessories a period of 12 months, following the date of original purchase and subject to the conditions set out in the warranty card accompanying the product when purchased. This warranty is in addition to the other rights and warranties you may have under the Australian Consumer Law (ACL) and Electrolux will at all times comply with its obligations at law including the ACL. For New Zealand customers Electrolux will at all times comply with its obligations pursuant to law including the Consumer Guarantees Act, the Sale of Goods Act and the Fair Trading Act. Where appliances are purchased in NZ for commercial purposes the Consumer Guarantees Act does not apply.

Product information

The descriptors and illustrations in this publication apply to the specific products and models described as at the date of issue. Under our policy of continuous product development, product specifications may change without notice. Prospective purchasers should therefore check with their retailer to ensure this publication correctly describes the products that are being offered for sale. All information supplied is to be used for general reference purposes only and is on the understanding that Electrolux Home Products Pty Ltd will not be liable for any loss, liability or damage of whatever kind arising as a result of reliance on such information. Colours of products illustrated are as close as printing limitations allow.

[†] Brisbane, Sydney, Melbourne, Adelaide, Perth.

^{*} Delivery to regional and country areas can be arranged with your local retail store.

[^] Only basic installations of laundry and dishwashers supported, limited to a 10 amp plug and lead. Please consult your relevant tradesperson.
