# DSK-45EP

JUST WHEN YOU THOUGHT YOU COULDN'T GET HOT WATER TO THAT AREA!

Gleamous Instant Electric Hot Water systems offer endless supply of hot water, which means no wastage of water, time, friendly on the environment and friendly on your pocket. This energy efficient 240v system features ultra modern design, low running costs, easy installation and has the capability to be put into those areas where hot water was not previously possible. A great example of this could be a outdoor BBQ area or garage. All you need is a powerpoint & cold water supply.

The most impressive part of the DSK model is it's efficiently and cost effectiveness against all other hot water systems. The DSK is your hot water solution to that particular area. This is the only point of use hot water unit available in Australia.
