

LED

LED recessed Bricklite. Rated **IP54**. Ideally suited for exterior commercial and domestic applications. The body is manufactured from aluminium, and finished in powder coat paint for added corrosion resistance. A thermoplastic housing is used to recess the LED Bricklite. Supplied in 240v version with 24 LED. Strong light output and long life. Stainless steel fixing screws are used to retain the Bricklite in the thermoplastic housing.

Cut out: 222 x 72mm
