

Inspiring Sustainable Architecture and Design

Bring Pure Natural Daylight into your home

Light, years beyond the rest.

Enjoy more daylight during winter – we feel better, think better, and live better

The Brighten Up series outperforms the others, with our Raybender 3000 technology, light tracking reflector and 99.7% reflective tube material we can provide up to double the light output at low angle sunlight (just when you need it the most, during winter).

Bring the enjoyment of summer indoors, without excessive heat.

Excessive layers of glazing or lenses can reduce winter light output, instead, Solatube Australia's Brighten Up series exclusively uses "Cool Tube" technology (patented) which draws heat away from the product before it enters your home.

Superior Energy efficiency and Energy compliance.

Our Brighten Up series is the only Australian owned product to be awarded the prestigious Energy star. Check the rating.

Harnessing the sun's natural light has never been so simple

Brighten Up Series™

Highest performance guaranteed*

Capture

Advanced optical domes capture daylight using proprietary technologies that harvest low-angle morning and afternoon daylight to increase light output, while filtering out harmful UV rays.

Efficient Transfer

The world's most reflective tubing transfers maximum daylight from rooftop to ceiling with minimal light loss and perfect colour rendition.

Controlled Delivery

Specially designed optical lenses evenly disperse daylight throughout the area to reduce glare and provide visual comfort.

160DS Square Decorative Fixtures
Just Frost or Optiview

Sunlight Efficiency

14-19 m² Light Coverage Area

Ideal for daylighting small to medium sized rooms including:

- ✓ Bathrooms
- ✓ Kitchenettes
- ✓ Pantries
- ✓ Hallways
- ✓ Wardrobes
- ✓ Laundries

290DS Square Decorative Fixtures
Just Frost or Optiview

Sunlight Efficiency

23-28 m² Light Coverage Area

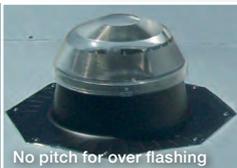

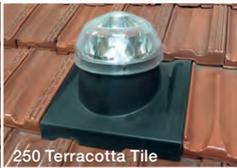

Ideal for daylighting medium to large sized rooms including:

- ✓ Kitchens
- ✓ Dining rooms
- ✓ Family rooms
- ✓ Rumpus rooms
- ✓ Bedrooms

Flashings

For all roof types

Fabricated as a single, seamless piece to ensure leak-proof performance, flashing kits are available for all roof types and pitches.

Accessories

Adding functionality and style to Australia's highest performing Skylight*

Select your style

OptiView®

Available in square or round. 160 DS & 290 DS

JustFrost™

Available in square or round. 160 DS & 290 DS

TierDrop™

160 DS & 290 DS

Classic Vusion™

160 DS & 290 DS

Control your light

Light Add-on Kit

Works with any ordinary bulb for night-time use.

Ventilation Add-on Kit

Combines with the Solatube® 160 DS to drive out humidity in a single elegant design.

Daylight Dimmer

Easily controls the amount of daylight entering a room with the convenience of a switch.

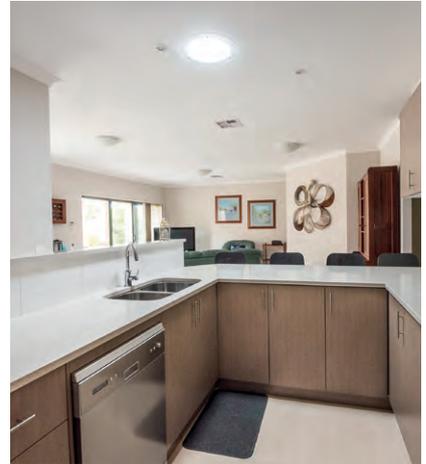

Accessory

Integrated Solar Electric Technology – Charging during the day, emitting a soft glow at night.

Bring the Daylight In

Our Skylights can Brighten any Dark Room

SolarStar

Power & Performance with style

Drive out heat and moisture

Advanced

Advanced solar panel technology generates maximum power.

Durable

Seamless, powder-coated steel flashing is leak-proof and durable.

Long-lasting

Non-corrosive polymeric fan blades and exhaust grill are long-lasting.

High-performing

High-performance motor is reliable and whisper quiet.
