

Pendant Light ISLA

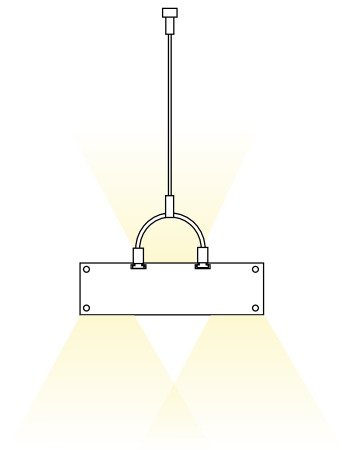

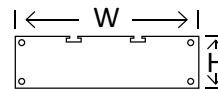

BoscoLighting's ISLA linear pendant light is a perfect lighting solution for open offices, conference rooms, hospitals and educational facilities. This high power direct and indirect lighting projects light upwards towards the ceiling to make rooms appear more natural and downward for efficient task lighting.

Crafted from extruded aluminium, this linear pendant can be customised in a powder coated white or black finish*.

Supplied as a complete unit with the light source, fitting, driver, suspension kits, and flex and plug lead for fast, hassle-free installation.
