welded wire mesh

arrowmetal

Arrow Metal welded wire mesh is manufactured from 304 grade or 316 grade stainless steel wire in various diameters. The longitudinal and transverse wires are resistance welded together to create a functional mesh product that is sturdy and stable.

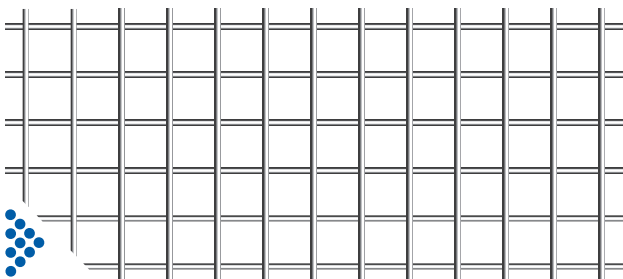

Ready for immediate dispatch across Australia and supplied in rolls or panels, our in-stock range of welded wire mesh is the perfect solution for many architectural and industrial specifications.

Advantages of the Arrow Metal Welded Mesh range:

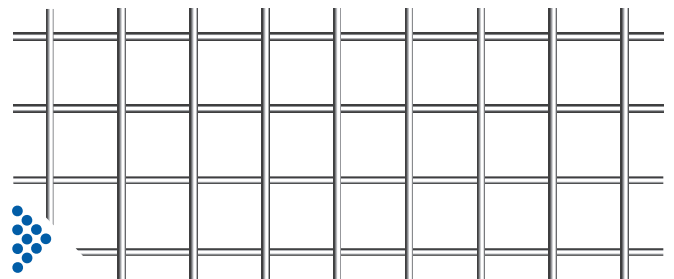

- A wide range of products in different wire diameters and mesh sizes.
- Products are supplied either in sheets, or rolls depending on the specification.
- Stock available in Australia for immediate delivery
